TARIFF FORMAT

Sheet Numbering. Sheet numbers appear in the upper right hand corner of the sheets. Sheets are numbered sequentially. From time to time new sheets may be added to the tariff. When a new sheet is added between existing sheets, a decimal is added to the preceding sheet number. For example, a new sheet added between sheets 5 and 6 would be numbered 5.1.

Sheet Revision Numbers. Revision numbers also appear in the upper right corner of sheets. These numbers are used to determine the most current sheet version on file with the Commission. For example, the 4th Revised Sheet No. 24 cancels the 3rd Revised Sheet No. 24.

Paragraph Numbering Sequence. There are nine levels of paragraph coding. Each level of coding is subservient to its next higher level, as shown by the following example:

2
2.1
2.1.1
2.1.1.A
2.1.1.A.1
2.1.1.A.1.(a)
2.1.1.A.1.(a).I
2.1.1.A.1.(a).I.(i)
2.1.1.A.1.(a).I.(i).(1)

Check Sheets. When a tariff filing is made with the Commission, an updated check sheet accompanies the tariff filing. The check sheet lists the sheets contained in the tariff, with a cross-reference to the current revision number. When new sheets are added, the check sheet is changed to reflect the revision. All revisions made in a given filing are designated by an asterisk (*). The tariff user should refer to the latest check sheet to find out if a particular sheet is the most current one on file with the Commission.

LOCAL EXCHANGE SERVICE

2.0 - GENERAL RULES AND REGULATIONS (CONT'D)**2.3 Liability (cont'd)**

No agent or employee of any other carrier shall be deemed to be an agent or employee of Clear Rate. Clear Rate's liability due to any failure of the transmission shall not exceed an amount equal to the charges provided for by the applicable tariff (for regulated services) and applicable price list, catalogue, and/or contract (for all other services) for the call. Clear Rate shall not be liable for damages arising out of the use of Clear Rate's services for the transmission of anything other than voice grade service.

Clear Rate will provide a customer's correct name and telephone number to a calling party either upon request to or interception by Clear Rate in the event there is an error or omission in the customer's directory listing. Clear Rate's liability for any errors or omissions in any directory listings is limited to the charges made for the listing itself. In the event Clear Rate omits a subscriber's listing from the white pages of the telephone directory or lists an incorrect telephone number, the company shall issue the subscriber a credit for the equivalent of not less than three months' regulated local service charges. Such credit shall not apply in cases where the subscriber has provided such listing information after the deadline for directory publication. Clear Rate shall not be liable for any incidental, indirect, special or consequential damages of any kind, including loss of use, loss of business, or loss of profit, arising from errors or omissions in directory listings.

By subscribing to service under this tariff, Customer acknowledges and agrees with the release of information as described above.

LIMITATION OF LIABILITY LANGUAGE

Approval of limitation of liability language by the PUCO does not constitute a determination by the Commission that the limitation of liability imposed by the company would be upheld in a court of law. Approval by the Commission merely recognizes that since it is a court's responsibility to adjudicate negligence and consequent damage claims, it is also the court's responsibility to determine the validity of the exculpatory clause.

Subscriber bill adjustments will be handled in accordance with 4901:1-6-12 of the Ohio Telephone Company Procedures and Standards.

3.2 IntraLATA Presubscription

3.2.1 General

IntraLATA presubscription is a procedure whereby a subscriber designates to the Company the carrier which the subscriber wishes to be the carrier of choice for intraLATA toll calls. Such calls are automatically directed to the designated carrier, without the need to use carrier access codes or additional dialing to direct the call to the designated carrier. IntraLATA presubscription does not prevent a subscriber who has presubscribed to an intraLATA toll carrier from using carrier access codes or additional dialing to direct calls to an alternative intraLATA toll carrier on a per-call basis.

3.2.2 Options

Option A: Subscriber may select the Company as the presubscribed carrier for intraLATA toll calls subject to presubscription.

Option B: Subscriber may select his/her interLATA toll carrier as the presubscribed carrier for intraLATA toll calls subject to presubscription.

Option C: Subscriber may select a carrier other than the Company or the subscriber's interLATA toll carrier as the presubscribed carrier for intraLATA toll calls subject to presubscription.

Option D: Subscriber may select no presubscribed carrier for intraLATA toll calls subject to presubscription which will require the subscriber to dial a carrier access code to route all intraLATA toll calls to the carrier of choice for each call.

Clear Rate may offer individualized arrangements on a case-by-case basis where necessary to meet prices, terms, or conditions of service offered by competitors. In such cases, the prices offered by Clear Rate shall not exceed the prices for similar services contained in this tariff. In addition, a Customer signing a term service agreement to purchase certain term discount eligible services from Clear Rate are eligible for a Term and Volume Discount. The Term and Volume Discount percentage may change from month to month if the Customer's monthly volume of charges for certain eligible services increases or decreases. Only eligible services purchased under a single service agreement count towards the applicable Term and Volume Discount. Discounts do not apply to any non-recurring charges, federal, state and local use, excise, sales and privilege taxes; applicable surcharges related to universal service programs, emergency telephone service (911/E911), telecommunications relay service for the hearing impaired; payphone surcharges; and other similar surcharges for required programs.

3.4 Private Switch Automatic Location Identification (PS/ALI)

This service is offered subject to the availability of appropriate facilities. It enables the customer to interface with the E911 database to provide address and location information for the stations that operate behind their switch. This information includes the PBX customers' names, addresses, and other location information which are associated with specific PBX station telephone numbers. The PS/ALI customer may be a municipality or other state or local governmental unit, or an authorized agent of one or more municipalities or other state or local governmental units to whom authority has been lawfully delegated, or a PBX owner/operator who has been required or who desires to provide PBX station specific location information to the E911 system. The PS/ALI customer must be authorized by the 911 jurisdiction to subscribe to PS/ALI service, and obtaining such authorization is the responsibility of the customer.

This service is offered as either Standard or Advanced. For Standard PS/ ALI, information is loaded and managed via Clear Rate's existing interface to the database provider. For Advanced PS/ALI, the customer manages 911 information via a direct PC interface to the database provider.
